MP asks for peoples view

Local MLA Tony Simpson has called on the residents of his electorate to contact his office and share their opinions on daylight saving.

“This is an issue that brings out a great deal of passion from people on both sides of the debate”, said Mr Simpson.

“The legislation to bring in daylight saving in Western Australia will be voted on in our State Parliament in the next few weeks.

“When I vote on this issue I want to make sure that I am representing the majority view of my constituents.

“The office number is 9525 4822. Everyone is welcome to call the office and have their say on the matter.”
